Key Features

Mechanism

Three lever asynchronous mechanism, seat pan and back support move independently from each other. Made from powder coated steel and recyclable plastic.

Seat and back

Wood.

Padding

Seat and back are upholstered with flexible polyurethane foam, recyclable when using a certain process.

Upholstery

Our standard vinyl contains 100% polyurethane with cotton and polyester backing. It is PVC and Phthalate free. It is also OEKO-TEX certified, which means that the upholstery is easy to clean, and resistant to disinfectants and common cleaning product.

Gas spring

Columns are available in three sizes. The spring is made of polished steel in Germany using nitrogen, a sustainable gas existing in 78% of normal air. Gas springs are maintenance-free and recyclable.

Base

Aluminium.

Castors

Cores are made from polyamide 6 and tread is made of recyclable polyurethane.
